**Madalena Energy Inc**  
**Report on Payments to Governments for the Year 2016**  
**December 31, 2016**

**Introduction**

This report provides an overview of the payments to governments made by Madalena Energy Inc and its subsidiaries (hereinafter referred to as "Madalena") for the year ended December 31, 2016 as required under the Extractive Sector Transparency Measures Act (the "Act"/ "ESTMA"). This Act, as enacted on June 1, 2015 requires extractive entities to report annually on payments made to governments relating to the commercial development of oil, natural gas, or minerals, at home and abroad.

This Report is available for download from <http://www.ctaurus.com/investor.php#estma-reports>

**Basis for Preparation - Report on Payments to Governments for the year 2016.**

**Legislation**

This report is prepared in accordance with ESTMA as enacted on June 1, 2015.

**Reporting Entity**

This report includes payments to governments made by Madalena Energy Inc. and its subsidiary undertakings ("Madalena"). Payments made by entities over which Madalena has joint control and is not the operator, are excluded from this report.

**Activities**

Payments made by Madalena, to governments, relating to the commercial development of oil, natural gas, or minerals, at home and abroad are disclosed in this report.

**Government**

Government includes any national, regional or local authority of a country, and includes a department, agency or entity that is a subsidiary of a government.

**Project**

Payments are reported at project level except that payments that are not attributable to a specific project are reported at entity level.

Project is defined as operational activities which are governed by a single contract, license, lease, concession or similar legal agreement, and form the basis for payment liabilities with a government. If such agreements are substantially interconnected, those agreements are to be treated as a single project.

"Substantially interconnected" means forming a set of operationally and geographically integrated contracts, licences, leases or concessions or related agreements with substantially similar terms that are signed with a government giving rise to payment liabilities. Such agreements can be governed by a single contract, joint venture, production sharing agreement, or other overarching legal agreement. Indicators of integration include, but are not limited to, geographic proximity, the use of shared infrastructure and common operational management.

**Payment**

The information is reported under the following payment types:

**Taxes**

These are taxes paid by Madalena on its income, profits or production (which include turnover taxes). Payments are reported net of refunds. Consumption taxes, personal income taxes, sales taxes, property

and environmental taxes are excluded.

#### **Royalties**

These are payments from the rights to extract oil and gas resources, typically at set percentages of revenue less any deductions that may be taken.

#### **Fees**

These are fees and other sums paid as consideration for acquiring a licence for gaining access to an area where extractive activities are performed. Administrative government fees that are not specifically related to the extractive sector, or to access the extractive resources, are excluded.

#### **Production entitlements**

These are the host government's share of production in the reporting period derived from projects operated by Madalena. This includes the government's share as a sovereign entity or through its participation as an equity or interest holder in projects within its sovereign jurisdiction (home country). Production entitlements arising from activities or interests outside of its home country are excluded.

In certain contractual arrangements, typically a production sharing contract, a government through its participation interest may contribute funding of capital and operating expenditures to projects, from which it derives production entitlement to cover such funding (cost recovery). Such cost recovery production entitlement is included.

There are no situations whereby a government settles Madalena's income tax obligation on behalf of Madalena.

#### **Bonuses**

These are payments for Bonuses. These are usually paid upon signing an agreement or a contract, or when a commercial discovery is declared, or production has commenced or reached a milestone. For the year-ended December 31, 2016, there were no bonus payments made to a government.

#### **Dividends**

These are dividend payments other than dividends paid to a government as an ordinary shareholder of an entity unless paid in lieu of production entitlements or royalties. For the year-ended December 31, 2016, there were no reportable dividend payments to a government.

#### **Infrastructure improvement payments**

These are payments which relate to the construction of infrastructure (road, bridge, or rail) not substantially dedicated for the use of extractive activities. Payments which are of a social investment nature, for example building of a school or hospital, are excluded. For the year-ended December 31, 2016, there were no infrastructure improvement payments to a government.

#### **OTHER**

##### **Operatorship**

When Madalena makes a payment directly to a government arising from a project, regardless of whether Madalena is the operator, the full amount paid is disclosed even where Madalena as the operator is partially reimbursed by its non-operating venture partners through a partner billing process (cash-call).

##### **Cash and in-kind payments**

Payments are reported on cash basis. In-kind payments are converted to an equivalent cash value based on the most appropriate and relevant valuation method for each payment, which can be at cost or market value or such value as stated in the contract. In-kind payments are reported in both volumes and the equivalent cash value. For the year-ended December 31, 2016 there were no in-kind payments to a government.

**Materiality level**

For each payment type, total payments below \$100,000 Canadian dollars to a government are excluded from this report.

**Exchange Rate**

Payments made in currencies other than Canadian dollars are translated for this report based on the foreign exchange rate at the relevant quarterly average rate which approximate the exchange rate at the time the transactions occurred.

The following quarterly rates were used in 2016

	Peso to USD	USD to CAD
Q1 2016	14,39	1,3724
Q2 2016	14,21	1,2882
Q3 2016	14,94	1,3046
Q4 2016	15,85	1,3344
